

## ComSIA-2027 International Conference on Computing Systems and Intelligent Applications

Organized by School of Open Learning, University of Delhi & Shaheed Rajguru  
College of Applied Sciences for Women, University of Delhi  
5-6th March 2027.

\*\*\*\*\* CALL FOR PAPERS \*\*\*\*\*

### SPECIAL SESSION ON

Artificial Intelligence, Blockchain and Cyber Security for Next-Generation Intelligent Computing

### SESSION ORGANIZERS:

Dr. Saurabh Jain

Associate Professor & Program Lead (Systems Cluster)

University of Petroleum and Energy Studies (UPES), Dehradun, India

Email: [saurabh.jain@ddn.upes.ac.in](mailto:saurabh.jain@ddn.upes.ac.in)

Dr. Gunjan Chhabra

Associate Professor, Dept. of CSE,

School of Science and Technology, Swami Rama Himalayan University (SRHU), Dehradun, India

Email: [gunjan.chhabra@srhu.edu.in](mailto:gunjan.chhabra@srhu.edu.in)

### EDITORIAL BOARD: (Optional)--TODO

[Name, University or Organization, Country, e-mail]

### SESSION DESCRIPTION:

Artificial Intelligence (AI), Blockchain, and Cyber Security have emerged as transformative technologies driving innovation across modern computing systems. Their convergence is enabling secure, decentralized, intelligent, and trustworthy digital infrastructures for applications such as healthcare, finance, smart cities, Industry 5.0, Internet of Things (IoT), autonomous systems, cloud computing, and digital governance.

This special session aims to bring together researchers, academicians, industry professionals, and practitioners to present the latest research findings, innovative methodologies, practical applications, and emerging trends in AI-driven cybersecurity, blockchain-enabled secure systems, privacy-preserving machine learning, and intelligent computing. The session provides an interdisciplinary platform for discussing theoretical advances, practical implementations, challenges, and future research directions in building secure and intelligent computing ecosystems.

Original research papers, case studies, industrial applications, survey papers, and experimental studies are invited from researchers worldwide.

## RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- Artificial Intelligence for Cyber Security
- Machine Learning and Deep Learning for Threat Detection
- Blockchain Applications in Secure Computing
- Privacy-Preserving AI and Federated Learning
- AI-based Intrusion Detection and Prevention Systems
- Blockchain for Internet of Things (IoT) Security
- Secure Smart Contracts and Decentralized Applications (DApps)
- Explainable AI (XAI) for Cyber Security
- Cyber Threat Intelligence using AI
- Blockchain-enabled Identity and Access Management
- Secure Edge Computing and Cloud Security
- AI-driven Digital Forensics and Incident Response
- Zero Trust Security Architecture
- Generative AI Security and Large Language Model (LLM) Security
- Blockchain in Healthcare, Finance, and Supply Chain
- Quantum-safe Cryptography and Post-Quantum Security
- AI for Malware Detection and Ransomware Analysis
- Privacy, Trust, and Ethical AI
- Intelligent Authentication and Biometric Security
- Secure Data Sharing using Blockchain
- Cyber Security in Smart Cities and Industry 5.0
- Trustworthy AI and Responsible Computing
- AI-enabled Risk Assessment and Security Analytics
- Emerging Trends in Intelligent Computing and Secure Systems

## SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on **Artificial Intelligence, Blockchain and Cyber Security for Next-Generation Intelligent Computing on or before the conference submission deadline announced on the ComSIA-2027 website**. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at [https://comsia.in/paper\\_submission.html](https://comsia.in/paper_submission.html). All submitted papers will be reviewed on a double-blind, peer review basis.

Accepted papers will be included in the conference proceedings subject to successful registration and presentation, as per the conference policies.

**NOTE:** While submitting the paper for this special session, authors are requested to specify the following session title at the top of the first page (above the paper title):

**Special Session: Artificial Intelligence, Blockchain and Cyber Security for Next-Generation Intelligent Computing**
