

ComSIA-2027 International Conference on Computing Systems and Intelligent Applications

Organized by School of Open Learning, University of Delhi & Shaheed Rajguru
College of Applied Sciences for Women, University of Delhi
5-6th March 2027.

***** CALL FOR PAPERS *****

SPECIAL SESSION ON

Emerging Trends in Intelligent Computing, Multimodal Intelligence, and Data-Driven Technologies

SESSION ORGANIZERS:

Dr. Sujith A, K.L. University (KLEF- Deemed University),
Vijayawada, Andhra Pradesh, India, asujith@kluniversity.in , sujidcbn@gmail.com

EDITORIAL BOARD: (Optional)

Dr. Rajesh Panakala , NIST UNIVERSITY, Berhampur, Odisha, India, rkpanakala@nist.edu

SESSION DESCRIPTION:

This special session explores the latest advances and emerging research trends in intelligent computing, multimodal intelligence, and data-driven technologies. The rapid evolution of artificial intelligence, multimodal learning, large language models, and data-driven computing is enabling intelligent, scalable, and adaptive solutions for next-generation computing systems and real-world applications. The convergence of these technologies is driving innovation in intelligent decision-making, multimodal information processing, and advanced computational frameworks.

Researchers and practitioners are invited to present recent developments in deep learning, multimodal intelligence, natural language processing, intelligent data analytics, edge intelligence, and trustworthy AI. The session also welcomes contributions on intelligent computing frameworks, distributed computing, and privacy-preserving technologies that advance robust and reliable intelligent systems. By bringing together novel computational models, intelligent algorithms, and data-driven approaches, this session aims to foster collaboration between academia and industry while advancing next-generation intelligent applications.

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- Artificial Intelligence and Machine Learning
- Multimodal Intelligence and Cross-Modal Learning

- Large Language Models and Vision-Language Models
- Natural Language Processing, Speech, and Multimedia Computing
- Deep Learning Architectures and Optimization
- Data Analytics, Data Mining, and Intelligent Decision Support
- Data-Driven Intelligence for Smart and Sustainable Systems
- Edge Intelligence, Internet of Things (IoT), and Distributed Computing
- Trustworthy AI, Privacy-Preserving Computing, and Intelligent Cybersecurity
- Intelligent Computing Frameworks and Applications

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on **Emerging Trends in Intelligent Computing, Multimodal Intelligence, and Data-Driven Technologies** *on or before 30th July 2026*. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at https://comsia.in/paper_submission.html. All submitted papers will be reviewed on a double-blind, peer review basis.

NOTE: While submitting paper in this special session, please specify **Emerging Trends in Intelligent Computing, Multimodal Intelligence, and Data-Driven Technologies** at the top (above paper title) of the first page of your paper.
