ComSIA-2027
International Conference on Computing Systems and Intelligent Applications

Organized **by School of Open Learning, University of Delhi & Shaheed Rajguru College of Applied Sciences for Women, University of Delhi**
5-6th March 2027.

********** CALL FOR PAPERS **********

SPECIAL SESSION ON

Machine Learning-Based Intelligent Systems and Applications

SESSION ORGANIZERS:

M.M. Institute of Computer Technology & Business Management Maharishi Markandeshwar (Deemed to be University) Mullana Ambala Haryana 133207, India
Jattidhillon55@gmail.com

SESSION DESCRIPTION:

This special session focuses on recent advancements in **Machine Learning-Based Intelligent Systems and Applications**, covering innovative methods, algorithms, models, and real-world applications of machine learning. The session aims to bring together researchers, academicians, and industry professionals to discuss emerging developments in **machine learning, deep learning, predictive analytics, intelligent decision-making, computer vision, natural language processing, reinforcement learning, explainable AI, federated learning, and edge intelligence**. Contributions addressing applications in healthcare, agriculture, smart cities, cybersecurity, IoT, transportation, education, finance, and other emerging domains are particularly encouraged. The session will provide a platform for sharing novel research findings, practical solutions, challenges, and future directions in machine learning-based intelligent systems.

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- Machine Learning and Deep Learning
- Artificial Intelligence and Intelligent Systems
- Explainable and Trustworthy AI
- Federated and Continual Learning
- Reinforcement Learning
- Predictive Analytics and Forecasting
- Natural Language Processing and Large Language Models
- Computer Vision and Image Processing
- Generative AI and Foundation Models
- Machine Learning for Healthcare and Medical Applications
- Machine Learning for Agriculture and Smart Farming
- IoT, Edge AI, and Intelligent Sensor Systems
- Cybersecurity and Intrusion Detection using Machine Learning
- Smart Cities and Intelligent Transportation Systems
- Anomaly Detection and Fraud Detection

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on **[**Machine Learning-Based Intelligent Systems and Applications**]** ***on or before*** **[30th August 2026]**. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at https://comsia.in/paper_submission.html. All submitted papers will be reviewed on a double-blind, peer review basis.

NOTE: While submitting paper in this special session, please specify [Machine Learning-Based Intelligent Systems and Applications] at the top (above paper title) of the first page of your paper.
