ComSIA-2027
International Conference on Computing Systems and Intelligent Applications

Organized **by School of Open Learning, University of Delhi & Shaheed Rajguru College of Applied Sciences for Women, University of Delhi**
5-6th March 2027.

********** CALL FOR PAPERS **********

SPECIAL SESSION ON
Explainable and Generative AI for Sustainable, Secure and Responsible Intelligent Systems

SESSION ORGANIZERS:
Dr. Shivani Vats, Jagan Institute of Management Studies (JIMS) Affiliated to GGSIPU, Rohini, Delhi, India. drshivanivats@gmail.com

SESSION DESCRIPTION:

The rapid advancement of Artificial Intelligence (AI), particularly Explainable Artificial Intelligence (XAI) and Generative Artificial Intelligence (GenAI), is transforming the development of intelligent systems across diverse domains. However, the increasing adoption of AI also raises important concerns related to transparency, trustworthiness, privacy, security, ethical decision-making, and environmental sustainability.

This special session aims to provide a platform for researchers, academicians, industry professionals, and practitioners to explore innovative applications of Explainable AI and Generative AI for developing sustainable, secure, transparent, and responsible intelligent systems. The session will focus on AI-driven approaches that support sustainable analytics and decision-making while ensuring interpretability, privacy preservation, fairness, robustness, and efficient utilization of computational resources.

The special session welcomes original research contributions, innovative methodologies, practical applications, case studies, and frameworks addressing the integration of XAI and GenAI with sustainable computing, intelligent analytics, cybersecurity, healthcare, smart systems, and other emerging application domains.

RECOMMENDED TOPICS:
Topics to be discussed in this special session include (but are not limited to) the following:

- Explainable Artificial Intelligence for transparent and trustworthy decision-making
- Generative AI applications for sustainable analytics and intelligent systems
- Explainable Machine Learning and Deep Learning models
- Privacy-preserving and secure AI techniques
- Trustworthy, ethical, fair, and responsible Artificial Intelligence
- Generative AI for healthcare, education, business, and smart applications
- AI-driven sustainable computing and Green AI
- Explainable AI for cybersecurity and threat detection
- Privacy preservation in data mining and intelligent analytics
- Federated Learning and privacy-aware intelligent systems
- Energy-efficient AI models and sustainable cloud computing
- Generative AI for data augmentation and synthetic data generation
- AI for smart cities, IoT, and sustainable development
- Bias detection and mitigation in AI systems
- Responsible AI governance, ethics, and regulatory challenges
- Blockchain-enabled trustworthy and transparent AI systems
- Human-centered AI and interpretable intelligent decision support systems
- Applications of XAI and GenAI in real-world sustainable development challenges

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on **[insert special session topic]** ***on or before*** **[insert due date]**. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at https://comsia.in/paper_submission.html. All submitted papers will be reviewed on a double-blind, peer review basis.

NOTE: While submitting paper in this special session, please specify [**insert special session title**] at the top (above paper title) of the first page of your paper.
